

Bertie's Make and Build Stick Spider Web

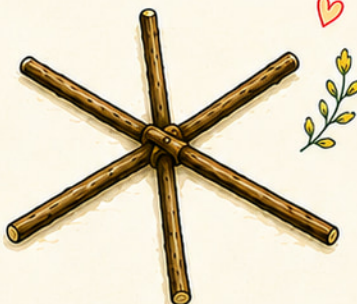

Make your very own spider web
with sticks and string!

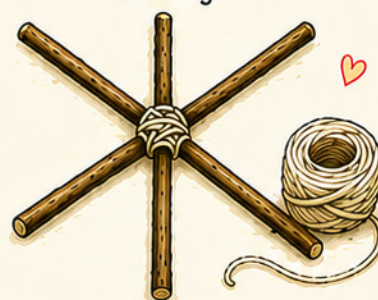

- 1** Gather 6 small sticks.
Find some string.

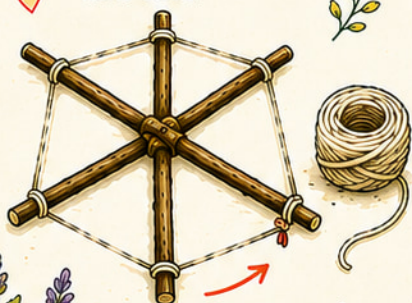

- 2** Lay the sticks in a star
shape like this.

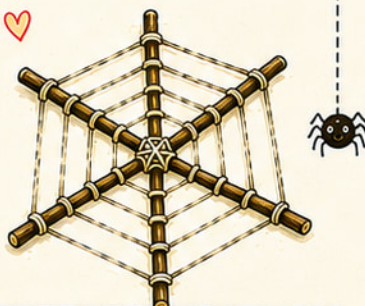

- 3** Tie the sticks together
tightly in the middle
with string.

- 4** Tie a piece of string
around the end of one
stick. Then wrap the
string around to the
next stick.

- 5** Keep wrapping the string
around each stick, making
smaller circles as you go
towards the middle.

- 6** Tie the string off in the
middle. Hang your spider
web and enjoy!

You did it!

A perfect home for
our little spider friends.
